SUMMARY

With over a year of experience in the IT industry, I specialize in developing enterprise solutions, focusing on scalable and secure applications. Currently, as a Middle Frontend Developer at Uzagrosug'urta Insurance Company, I contribute to the development of an insurance sales platform. My expertise in frontend technologies ensures optimal performance and user-centric design in diverse operational environments.

EXPERIENCE

Frontend Engineer   [Uzagrosug'urta Insurance Company](#)   **10/2024 - present**

- Developed [mypolis.agros.uz](#), a comprehensive platform for users to explore and purchase insurance policies online.
- Improved user experience and streamlined the purchasing process, resulting in increased platform engagement.
